SECTION 01 · INVESTMENT OVERVIEW

Total Capital Requirements

PHASE 1 2026 — Foundation \$20M Planning, regulatory approvals, design, team building, FAA eIPP participation	PHASE 2 2027 — Infrastructure \$50M Historic building restoration, VTOL rooftop facilities, AV terminals, computing systems	PHASE 3 2028 — Technology \$32M eVTOL fleet (10–15 aircraft ~\$1.3M/unit), AV fleet, AI traffic management, charging infra	PHASE 4 2029 — Launch \$22M Operations launch, fleet expansion, marketing, working capital, growth reserves
---	---	--	---

Phase 1 Funding Priority: \$20M target by Q4 2026. Sources: Founder equity (\$5M) + Angel investors (\$8M) + Federal/state grants (\$7M). Milestones: FAA eIPP enrollment, T&P lease execution, architectural design complete, technology partner MOUs signed.

Revenue Projections — Year 5 (2031)

Revenue Stream	Conservative	Moderate	Optimistic	Basis / Assumptions
eVTOL Operations	\$21.9M	\$54.8M	\$131.4M	25–40 aircraft, \$75–125/passenger, 8–12 flights/day
Autonomous Vehicle Services	\$16.4M	\$54.8M	\$137.3M	50–100 vehicles, \$15–25/trip, 15–25 trips/day
Innovation Center / Real Estate	\$2.4M	\$3.8M	\$5.1M	120K sq ft, \$25–45/sq ft, 80–95% occupancy
Technology Licensing & IP	\$4.0M	\$10.0M	\$16.0M	Patents, data licensing, consulting
Ancillary (Retail / Cargo)	\$6.0M	\$10.0M	\$16.0M	Retail, dining, parking, cargo transport
Total Revenue	\$50.7M	\$133.4M	\$305.8M	

CONSERVATIVE

\$50.7M

IRR: 18% · Break-even Yr 6

MODERATE (BASE CASE)

\$133.4M

IRR: 22.3% · Break-even Yr 5

OPTIMISTIC

\$305.8M

IRR: 32%+ · Break-even Yr 4

SECTION 03 · OPERATING EXPENSES

Year 5 Operating Cost Structure

Expense Category	Conservative	Moderate	Optimistic	Notes
Personnel (executive, ops, tech, admin)	\$32.5M	\$32.5M	\$32.5M	800+ FTEs; CEO, COO, CTO, CFO + team
Aircraft & Vehicle Maintenance	\$17M	\$25M	\$33M	Fleet-size dependent; annual maint. per aircraft
Facilities, Energy & Utilities	\$14M	\$18M	\$22M	EV charging, building ops, regulatory compliance
Debt Service, Professional & Admin	\$10M	\$13M	\$16M	Construction/equipment financing, legal, contingency
Total Operating Expenses	\$73.5M	\$88.5M	\$103.5M	

EBITDA & Profitability (Year 5)

Scenario	Revenue	Total OpEx	EBITDA	EBITDA Margin
Conservative	\$50.7M	\$73.5M	(\$22.8M)	-45%
Moderate (Base Case)	\$133.4M	\$88.5M	\$44.9M	34%
Optimistic	\$305.8M	\$103.5M	\$202.3M	66%

SECTION 04 · INVESTOR RETURNS

Return on Investment Summary

22.3%	4.2 yr	\$89M	Yr 5	34%
PROJECTED IRR (MODERATE)	PAYBACK PERIOD	NPV AT 10% DISCOUNT RATE	BREAKEVEN TARGET (2031)	EBITDA MARGIN AT MATURITY

Exit Strategies

- **Strategic acquisition** by major airline, automotive, or tech firm
- **IPO** as first publicly-traded integrated mobility hub operator
- **Real estate REIT** conversion for income-generating asset monetization
- **Municipal partnership** buyout with ongoing management contract
- **Franchise licensing** to other metropolitan markets nationally

Government Incentives Available

- Federal DOT Transportation Investment Generating Economic Recovery (TIGER) grants
- Historic Tax Credits (20% of qualified rehabilitation costs)
- Texas Enterprise Fund & Governor's Economic Development funds
- Fort Worth Economic Development Program incentives
- FAA eIPP program participation and co-investment
- New Markets Tax Credits for community development investment

Key Financial Assumptions & Benchmarks

Metric	Assumption	Industry Benchmark / Source
eVTOL per-seat-mile fare	\$3–11/mile	Joby targeting ~\$3/seat-mile; industry range \$3–11
Aircraft unit cost	~\$1.3M	Joby S4 / Archer Midnight manufacturing cost
Trips per aircraft per day	8–25	Archer targeting 10–25 at scale
AV trip cost comparison	\$15–25/trip	Comparable to current ride-share pricing
Innovation center rent	\$29–37/sq ft	CommercialCafe Fort Worth Class A, 2025
Waymo injury rate reduction	88% fewer	Waymo published safety comparison data
DFW congestion cost	\$1,618/driver/yr	Texas Transportation Institute 2024
